

CAREERS IN PSYCHOLOGY · INDIA

The map nobody hands you

Ten career paths, one
honest look at the licence
reality, and what to
verify first.

**Your degree is
only step one**

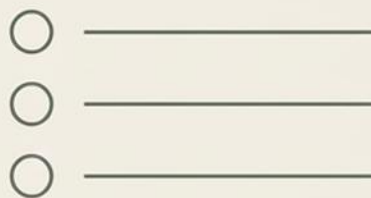

BA or BSc builds theory.
Registration depends on your
course and regulator —
check both before enrolling.

Who regulates what, right now

RCI registers Clinical Psychologists. The NCAHP Act, 2021 covers other psychology professionals. Rules are still evolving.

Check approval before you pay

Not every MA, MPhil or
diploma leads to registration.
Verify the institute on the
RCI list first.

Supervised hours are non- negotiable

Practica, case reports and supervision build competence. No format — offline — replaces them.

The field is wider than the clinic

Schools, hospitals, NGOs, corporate wellbeing, research, forensic, rehabilitation, sport, product, policy.

Your next step this week

Pick one path. Find one person doing it. Ask one good question.
Then save this for later.
